```
1
             Q.
                    Have you spent more than
 2
      150 hours?
 3
             Α.
                    I'm not sure, but I would think
 4
      so.
 5
                    More than 200 hours?
             Q.
 6
             Α.
                    I don't know.
 7
             Ο.
                    How many hours do you plan to
 8
      spend on this case in the future?
 9
                    MS. ELLSWORTH: Object to the
10
             form.
11
                    THE WITNESS: Whatever amount
12
             of hours are required to do my due
13
             diligence and do what's required of me
14
             as an expert.
15
      QUESTIONS BY MS. BOGGS:
16
                    And you said you have not
             Q.
17
      submitted any invoices for this case, or you
18
      just haven't submitted your final invoice?
19
             Α.
                    No invoices. It's just been on
20
      such a tight turnaround that I just haven't
      had the time to submit it yet.
21
22
             Q.
                    What do you do for a living?
23
                    I serve as an expert witness in
      human trafficking cases. I provide training
24
      and technical assistance for law enforcement.
25
```

1 that is a part-time role, no more than ten 2 hours per week. But I would say more often than not, less than -- less than that. 3 4 You mention that you provide 5 training and technical services through Break 6 the Chain, and you then also provide training 7 through Freedom Light; is that correct? 8 Α. Correct. 9 What's the difference between Q. 10 the training you provide at Break the Chain 11 and the training you provide at Freedom 12 Light? 13 So Freedom Light is 14 specifically oriented towards private 15 businesses. The training through Break the 16 Chain is -- it can be law enforcement. Ιt 17 could be anybody. 18 But specifically through 19 Freedom Light, we're actually producing a --20 the most recent thing is producing a video 21 that can be incorporated into training 22 curriculum for businesses. 23 Through that capacity in 24 Freedom Light, our largest client, our main 25 client, has been doing reoccurring trainings

1 for a dating website and then also working 2 with tech companies to try to find artificial 3 intelligence and machine-learning 4 technologies to automate screening protocols 5 specifically for online platforms, so how 6 they can screen and automate ways in which 7 they potentially identify, I guess, instances 8 that might be at risk for trafficking. 9 So, for example, we had worked 10 on a beta version of screening online review 11 forums that were used by commercial sex 12 consumers, screening those for mentions of a 13 particular business and see if there was a 14 way that we can automate that to produce 15 reports for that particular business. 16 So the beta version that we 17 used, we had done an auto -- I think it's a 18 machine-learning technology that was 19 automatically scraping a website by the name 20 of USA Sex Guide. But there were some issues 21 with security, and also it was duplicating 22 the scraping effort, so we were trying to 23 work through that. 24 But it was never ultimately, 25 you know, disseminated even in beta version.

```
1
                    She is on the board, and she
             Α.
 2
      works for that law firm, so she's a member of
      the board.
 3
 4
             Ο.
                    And what is her -- sorry, go
 5
      ahead.
                    Oh, and she also serves as
 6
             Α.
 7
      treasurer.
 8
             Ο.
                    And other than being the
 9
      treasurer, what is her connection to Freedom
10
      Light?
                    She serves on the board.
11
12
                    And does she perform any
             Ο.
13
      services for Freedom Light, other than
14
      serving on the board? Does she help develop
15
      the trainings?
16
             Α.
                    No.
                         She doesn't help -- I
17
      mean, she gives feedback on the videos and, I
18
      mean, serves in a capacity that would be akin
19
      to a board. So she meets with the board
20
      and gives feedback on moving forward.
21
                    So, for example, I think right
22
      now she's looking at the dissemination
23
      software of where we're going to publish the
24
      online training. She gives -- because she
25
      works for a law firm, she does some advisory
```

```
1
      They were not joint programs whatsoever.
2
                    What did you do in between 2005
             Ο.
3
      and when you began your master of arts
4
      program?
5
             Α.
                    I was a GED adult basic
6
      educational workplace essential skills
7
      teacher for a period of time at the adult
8
      detention center at Princeland County jail.
9
                    I don't remember if I was
10
      teaching at the time. So I've taught on and
11
      off at George Mason, undergrad classes.
12
                    I taught at University of
13
      Maryland-College Park from around 2012 to
14
      around 2014 or so.
15
             Ο.
                    Under the doctor of philosophy,
16
      where you list your doctor of philosophy
17
      degree, it states, "Dissertation:
18
       'Crimmigration' Effect: An analysis of 287(q)
19
      and Latino/a representation in the US
20
      juvenile justice system."
21
                    Do you see that on your CV?
22
            Α.
                    Yes, ma'am.
23
             Ο.
                    Did you mention human
24
      trafficking in your dissertation?
25
            Α.
                         So I had -- I had taken
                    No.
```

1 graduate-level coursework on human 2 trafficking with a woman by the name of Louise Shelley, who is one of the few 3 4 professors that actually had classes, 5 specific graduate classes, on trafficking at the time. 6 I had asked her to do a -- my 7 dissertation on human trafficking. However, since there wasn't 8 9 any -- I came from a very heavily 10 quantitative department, and there was no 11 quantitative data collection on human 12 trafficking available at the time. As I'm 13 sure you're aware, the FBI's Uniform Crime 14 Report didn't even have a data point on 15 trafficking until 2013, which I think was 16 published in 2014. 17 So for that reason, I was told 18 by my program that I could not do my 19 dissertation on trafficking, and -- even 20 though Dr. Shelley was somebody who was 21 willing to provide oversight for that 22 doctoral dissertation. 23 So I did something that I 24 thought was not too far, too far removed, 25 looking at, you know, immigration and

1 erroneous criminalization, but it wasn't 2 something that was possible to have been done 3 in 2012 because of the lack of quantitative data. 4 5 Q. Under your dissertation, your 6 CV states, "Expertise: Human trafficking, 7 human smuggling, immigration, survey methods and systematic review." 8 9 Do you see that? 10 Α. Yes, ma'am. 11 What does that mean, Ο. 12 "expertise" here? 13 I would say it's my subject 14 matter area of expertise. So I think that I 15 had some expertise and background in each of 16 those specific subjects. 17 For example, I took several 18 classes where I had to do -- in as well as 19 part of my graduate research positions where 20 I had to do systematic reviews. In one class 21 I did a meta-analysis from those systematic 22 reviews and formally trained in survey 23 research methods. And I have utilized that 24 in my research where I have done it on human 25 trafficking since then.

```
1
                    Immigration, human smuggling,
 2
      human trafficking, those are all sort of
 3
      related to the courses that I took,
 4
      graduate-level courses, during my current --
 5
      during my graduate education.
 6
             Q.
                    So this is your
 7
      self-description right here under expertise.
      This is not a certification --
 8
 9
                   Oh, correct.
             Α.
10
             Q.
                    -- given to you by George
11
      Mason, correct?
12
             Α.
                    Yes.
13
                    I apologize for interrupting
14
      you again.
                   I'm so sorry.
15
             Ο.
                    That's okay. It's sort of
16
      natural conversation. This is an unnatural
17
      format. I get it.
18
                    You mentioned that you took
19
      graduate-level classes relating to human
20
      trafficking.
21
                    Which classes are those?
22
                    I don't remember offhand.
             Α.
23
      was ten -- over ten years ago. I know that
24
      Dr. Louise Shelley was working on her book on
25
      human trafficking at the time of my class,
```

```
1
      and I believe we actually reviewed a version
 2
      of it that was prior to publication.
 3
                    So she had a class that was
 4
      specific -- my recollection, it was called
 5
      human smuggling and human trafficking,
 6
      something like that. So that was one class.
 7
                    I took classes on foreign
      nationals and crime, which focused on human
 8
 9
      trafficking.
10
                    I don't remember each and every
11
      class that talked about trafficking at the
12
      time because, again, it was a burgeoning
13
      subject that criminologists were looking at,
14
      other than Louise Shelley. Louise Shelley
15
      was somebody who had been looking at it for a
16
      number of years, specifically in Europe, as
17
      well as in the United States.
18
                    But what comes to mind just
19
      mostly immediately is Dr. Shelley's class is
20
      wholly focused on human trafficking and
21
      smuggling.
22
                    But I know that there were
      several other classes.
23
24
                    You taught at a couple of
      universities.
25
                      You mentioned that earlier,
```

```
1
             Q.
                    And you taught that class for
 2
      one semester, correct?
 3
                    Correct. And it was more of a
            Α.
 4
      directed study class with a Ph.D. candidate.
      So it wasn't a course of students.
 5
 6
             Q.
                    You said "candidate."
                                            It was
 7
      just a one-on-one?
                    A Ph.D. candidate, somebody who
 8
            Α.
 9
      had not yet finished their Ph.D. who was
10
      going through the process to become a Ph.D.
11
                    But you said "candidate,"
12
      singular. Does that mean it was one student?
13
            Α.
                    Oh, correct.
14
                    The rest of the classes that
             Q.
15
      you mention here, are any of them -- did any
16
      of them relate to human trafficking?
17
                    I incorporated human
18
      trafficking material into all of my classes.
19
      So I wouldn't say -- just -- same thing with
20
      the courses that I took at Mason.
                                          Only one
21
      of them was entirely focused on human
22
      trafficking, which was Dr. Shelley's, but
23
      there were several other classes where human
24
      trafficking was incorporated into the
25
      material.
```

```
1
             Α.
                    For sure less than 50 percent.
 2
             Ο.
                    Less than 25 percent?
 3
             Α.
                    Possibly. I mean, I don't
 4
      remember, but I would say for certain less
 5
      than 50.
 6
             Ο.
                    In the GED Workplace Essential
 7
      Skills and Adult Basic Education, I'm
 8
      assuming there's no human trafficking there,
 9
      correct?
10
            Α.
                    No.
                         That was classes that I
11
      taught to inmates at the jail.
12
             Q.
                    The first three classes you
13
      mentioned, Social Inequality Crime and
14
      Justice, Law and Justice Around the World,
15
      and Human Rights and Justice, what percentage
16
      of those classes were devoted to human
17
      trafficking?
18
             Α.
                    I don't remember. I think some
19
      students actually criticized for how much I
20
      talked about human trafficking compared to
21
      other professors. I don't remember how much.
22
      But that was my subject matter area of
23
      expertise, and a lot of students were very
24
      much interested in that topic, which is why
25
      they took it from me as opposed to another
```

```
1
      professor. I don't remember how much of the
      material, though.
 2
 3
             Q.
                    Was it less than 50 percent?
 4
                    I would say probably.
 5
                    And other than the first class
             Q.
      that we talked about where it was a directed
 6
 7
      study with a potential Ph.D. candidate, were
 8
      any of these classes on your list
 9
      graduate-level classes?
10
            Α.
                    No, they were not.
11
                    Looking now at page 89 of your
12
      report --
13
            Α.
                   Uh-huh.
                    -- so on your CV under
14
             Q.
15
      Publications --
16
            Α.
                    Uh-huh.
17
                    -- is this a complete list of
18
      your publications?
19
                    So there's publications that
20
      are separate from reports. So it's not
21
      everything that I've written, because there's
22
      that second delineation, but let's see.
23
                    I think so. I'm just trying to
24
      see if the Projected Heros peer-reviewed
25
      journal article is here. Yeah, that's there.
```

```
1
                    I think this should be a
 2
      complete list.
 3
             Q.
                    Are all of these publications
      published in peer-review journals?
 4
 5
             Α.
                    No. Clearly not.
 6
             Q.
                    How many of these are published
 7
      in peer-review journals?
 8
                    So on page 90, the Projected
 9
      Heros, Self-Perceived Manipulators, that's
10
      published in a peer-review journal article.
11
      That's one.
12
                    I think the two articles, the
13
      Mentions of Dental Hygiene and Decisions in
14
      Dentistry, I think those are two peer-review
15
      journal articles. So that's three.
16
                    The Safe Harbor Legislation for
17
      Juvenile Victims of Sex Trafficking on
18
      page 91, that's a peer-review journal
19
      article.
20
                    My book is not a peer-reviewed
21
      journal article, but it was reviewed by
22
      peers. So it was reviewed by Louise Shelley.
      It was reviewed by John Cotton Richmond, who
23
24
      is a former prosecutor. They provide blurbs,
25
      like, on the back. So it wasn't a
```

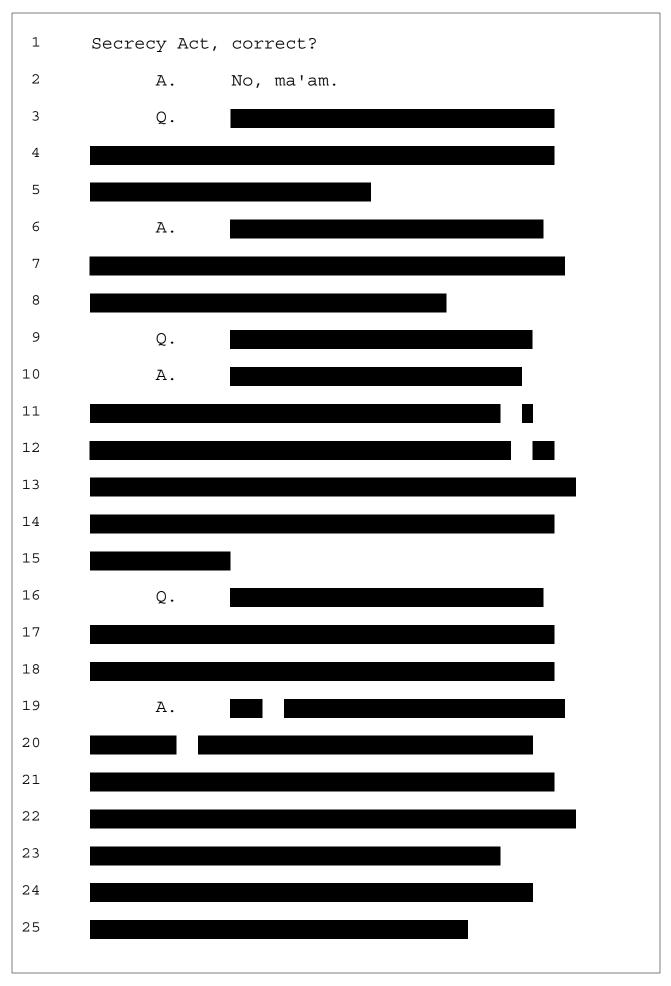

```
1
      peer-review process, but it's a hybrid
 2
      academic/commercial press. So there was, I
      think, a vetting of the information to some
 3
 4
      degree.
 5
                    So I'd say four if you're only
 6
      counting the journal -- four if you're only
 7
      counting the journal articles.
                    When you say your "book," do
 8
             Q.
 9
      you mean Hidden in Plain Sight?
10
             Α.
                    Yes, ma'am.
11
                    You wrote another book called
12
      The Jihadi Next Door: How ISIS is Forcing,
13
      Defrauding and Coercing Your Neighbor into
14
      Terrorism, correct?
15
             Α.
                    Correct.
16
                   Does that book relate to human
             Q.
17
      trafficking?
18
             Α.
                    No, it doesn't relate to human
19
      trafficking, but it does discuss how the
20
      methods of recruitment into organized crime
21
      such as terrorism can -- are tangentially
22
      similar to methods of recruitment control
23
      used by traffickers.
24
                    So does the word "trafficker"
             Ο.
25
      or "trafficking" appear in your book?
```

```
1
             Α.
                    No, ma'am, I'm not.
 2
             Ο.
                    You're not a psychiatrist,
 3
      correct?
                    That is correct.
             Α.
 5
                    You're not a medical doctor,
             Q.
 6
      correct?
 7
             Α.
                    That is correct.
                    You're not a mental health
 8
             Q.
 9
      professional, correct?
10
             Α.
                    That is correct.
11
                    You are not an expert on
12
      banking regulations, correct?
13
             Α.
                    That is correct. I don't
14
      purport to be.
15
                    And you're not an expert on
             Ο.
16
      banking compliance, correct?
17
                    That is correct.
18
             Q.
                    You do not have any expertise
19
      regarding the Bank Secrecy Act, correct?
20
                    Again, I'm not an expert on
21
      banking regulations.
22
                    Prior to this case, have you
             Ο.
23
      ever worked in a financial institution?
24
                    MS. ELLSWORTH: Object to the
25
             form of the question.
```

```
1
                    VIDEOGRAPHER:
                                    The time is
 2
                         We're back on the record.
             11:23 a.m.
      QUESTIONS BY MS. BOGGS:
 3
 4
                    We were talking about your
 5
      background earlier.
 6
                    You've never investigated or
 7
      prosecuted trafficking in connection with any
 8
      law enforcement agency, correct?
 9
                    What do you mean by
             Α.
10
      investigated?
                      That I've never investigated
11
      as a law enforcement officer?
12
             Ο.
                    Correct.
13
                    As I mentioned earlier, I'm not
14
      a law enforcement officer, but I have worked
15
      in collaboration with law enforcement to
16
      catalyze investigations.
17
                    What do you mean, catalyze
      investigations?
18
19
                    To, I guess, provide them with
             Α.
20
      information to start an investigation.
21
      provide them with information that they might
      not be aware of, that might be a situation
22
23
      that is at a high risk of trafficking.
24
                    So if you want -- would you
25
      like me to give a couple of examples?
```

```
1
      with regards to -- I mean, again, it depends
 2
      on what you're talking about. If you're
 3
      talking about human trafficking, victim
 4
      reporting, so reporting that they've been
      victimized.
 5
 6
                    Oftentimes law enforcement will
 7
      intervene if they identify an advertisement
 8
      for commercial sex and reviews for commercial
 9
      sex online, that'll catalyze an
10
      investigation.
11
                    You see interventions -- let's
12
            If there's surveillance of a particular
      see.
13
      brothel where you're seeing individuals
14
      coming in, for example, entirely male
15
      clientele going to an erotic massage parlor,
16
      it could be from a commercial sex consumer
17
      reporting it, it could be a victim reporting
      it.
18
19
                    There are a number of ways in
20
      which a law enforcement agency might
21
      intervene.
                  But I've never seen an instance
22
      where cash payment from a -- to a victim,
23
      I've never seen that catalyze an
24
      investigation or intervention.
25
                    On page 19, the second to last
            Q.
```

```
1
                    THE WITNESS: Again, as I
 2
            mentioned, that I think that perhaps a
 3
            greater disruptive impact on
 4
             traffickers would be incapacitating
 5
             them through long terms of
 6
             incarceration. But certainly impeding
 7
             on their ability to make money and
 8
             exploit their victims and earn money
 9
             off of their victims and -- I think it
10
             could have a -- also a great
11
             disruptive impact, for certain.
12
      QUESTIONS BY MS. BOGGS:
13
                    If you go back to your report
14
      on page 18, you state, "In fact" -- and this
15
      is sort of bottom middle, I'll call it.
16
      fact, the exact opposite is true, as his
17
      alleged crimes continued for six years after
18
      the cessation of his business relationship
19
      with JPMC
20
21
22
                    Do you see that?
23
            Α.
                    Yes, ma'am.
24
                    You are not offering opinions
             Q.
25
      about whether JPMorgan complied with the Bank
```

```
1
           So I would assume that there would be
 2
      associated law enforcement records that I did
 3
      not see.
 4
                    Does everybody always do what
             Q.
 5
      they're supposed to do?
 6
                    MS. ELLSWORTH: Object to the
 7
             form of the question.
 8
                    THE WITNESS: Of course not.
 9
      QUESTIONS BY MS. BOGGS:
10
                    So it's possible that these
11
      women could have saw a doctor and that the
12
      doctor could have identified them or had
13
      suspicions that they were a human trafficking
14
      victim and never reported it, right?
15
            Α.
                    Again, as an empirically based
16
      researcher, I'm going to rely upon Popper's
17
      theory of falsifiability. Anything is
18
      possible. So for certain, that is possible.
19
                    So you have no concrete
             Q.
      evidence -- strike that.
20
21
                    MS. BOGGS: We can take a
22
            break.
23
                    VIDEOGRAPHER:
                                   Okay. The time
24
             is 3:22 p.m., and we're going off the
25
             record.
```

```
1
      between -- an in-between area between
 2
      trafficking and consent, but I would not
      consider survival sex to be truly consenting.
 3
 4
                    So I think my opinion on that
 5
      issue is made very clear in the report.
 6
      Again, I think that these children should be
 7
      treated as persons in need of services,
 8
      social services. They should not be
 9
      criminalized. They should not be treated as
10
      consenting criminals whatsoever.
11
                    But the fact of the matter is
12
      that they -- despite what Ms. Carr says, they
13
      are not treated as de facto victims of
14
      trafficking.
15
                    Treated by whom?
16
                    By law enforcement, by courts,
             Α.
17
      by appellate courts, by social services, by a
      number of entities.
18
19
                    So earlier we were talking
             Q.
      about misidentification.
20
21
                    Have you ever been sued by a
      business for defamation?
22
23
             Α.
                    Yes.
24
             Ο.
                    When?
                    I think in 2015.
25
             Α.
```
